Sample applicant

Applying for **Grade 6** · Public school · no IEP/504 · never retained

PLACEMENT SCENARIO · YOUR CALL, NOT OURS

Grade-level placement, with a support plan

On the public-school sequence, Sample is working within public grade 6–7 skills in math (on track for grade 6) and working within public grade 5.5–6.5 skills in language arts (on track for grade 6). In your sequence, Sample is ready for Arithmetic 6 in math and for somewhere between Writing & Grammar 6 · Perspectives in Literature · Spelling 6 and Writing & Grammar 7 · Exploring Themes in Literature · Vocabulary Level A in language arts, with 3 skills to close.

	PUBLIC-SCHOOL SEQUENCE	NATIONAL	AT SAMPLE CHRISTIAN SCHOOL
Math 41 min	**6–7** public-school skill level On track for grade 6	National comparison: not available yet	Ready for **Arithmetic 6** Covered through Arithmetic 5 · Abeka 3 skills to close in math
Language arts 35 min	**5.5–6.5** public-school skill level On track for grade 6	National comparison: not available yet	Between **Writing & Grammar 6 · Perspectives in...** and **Writing & Grammar 7 · Exploring Themes in...** Covered through English 5 · Reading 5: Quests · Spelling 5 · BJU Press no skills to close in language arts

Entry point: the start of grade 5, where a student now in grade 5 has shown most of the skills public schools teach through grade 4. On track for grade 6: the whole range is at or above it. Short of grade 6 skills: the whole range is below it, or ends exactly at it; the years count from the level estimate to the start of grade 6. Too close to call: the range crosses it. Skill levels are ranges on the public-school sequence of skills, not grade equivalents of any normed test. No grade-equivalent bar applies to these numbers: no normed comparison stands behind them yet.

SAY THIS TO THE FAMILY

In math, Sample is working within public grade 6–7 skills: on track for grade 6. In language arts, Sample is working within public grade 5.5–6.5 skills: on track for grade 6. There are 3 skills to work on. We would work on those in the first weeks of school and check in at week 9.

BEFORE DAY ONE: 3 SKILLS TO CLOSE

1. **Add/subtract fractions, unlike denominators**
   Math · taught in Arithmetic 4, public grade 5 · Still learning: pattern unclear; missed 2
2. **Add/subtract mixed numbers with regrouping**
   Math · taught in Arithmetic 4, public grade 5 · Still learning: pattern unclear; missed 4
3. **Multiply fractions and mixed numbers**
   Math · taught in Arithmetic 4, public grade 5 · Still learning: add across; missed 3
